Profile

First-year engineering student at Toulouse INP–ENSEEIHT, specialising in Electronics and Electrical Engineering (3EA). Interested in electronic, electrical and embedded systems and their industrial applications. Seeking a technical internship to apply my skills, contribute to practical engineering projects and help develop effective, value-driven solutions.

Education

Engineering Degree – Toulouse INP–ENSEEIHT **2026–2029**
Department of Electronics and Electrical Engineering (3EA)

Bachelor's Degree in Electrical Engineering **2025–2026**
Hassan II University of Casablanca – Faculty of Sciences Aïn Chock

University Diploma in Physical Sciences (DEUG) **2023–2025**
Hassan II University of Casablanca – Faculty of Sciences Aïn Chock

Scientific Baccalaureate – Physics and Chemistry **2022–2023**
Groupe scolaire Henri Matisse – Oulfa, Casablanca

Academic Projects

Student Net – Team Entrepreneurship Project

- Contributed to the design of a platform focused on student life, including peer support, student associations, well-being, productivity and academic and professional opportunities; helped define its value proposition and business model.

Smart Home Automation System

- Designed and built a functional Arduino UNO-based home automation system integrating PIR, LDR and DHT11 sensors, automated lighting, air conditioning and motorised window control, real-time status monitoring and audible alerts.

Arduino-Based Automatic Parking System

- Implemented vehicle detection using an HC-SR04 ultrasonic sensor and automated barrier control.

Snake Game Development in C

- Developed a game in a team of two, implementing movement control and collision detection while applying algorithmic problem-solving and structured programming principles.

Technical Skills

Programming and Industrial Automation: C, Python, PIC assembly language, Arduino, Ladder Logic (PLCs), STEP 7, Automgen.

Simulation and Design Tools: MATLAB/Simulink, Proteus, Tinkercad, Fritzing, Cisco Packet Tracer.

Certifications

- MATLAB Onramp – MathWorks
- Simulink Onramp – MathWorks
- Machine Learning Onramp – MathWorks
- Machine Learning with Python – Cognitive Class

Extracurricular Activities

Student Clubs: PHOTO7 (Photography Club); Club Zik (Music Club and guitar learning).

Sports: Football with AS INP; swimming as part of ENSEEIHT's physical education programme.

Languages

Arabic: Native **French:** C1 (TCF) **English:** Intermediate
